

## SAYS M'CALL CARRIED WORD

Sulzer's Wife Bears Out His Statement Concerning Messenger

MURPHY ASSUMED SECRET AUTHORITY

James Creelman Has Article on the New York Ex-Governor

NEW YORK, Oct. 21.—The United Press has secured the use of James Creelman's second copyright article on Sulzer written for the Evening Mail. The article shows that the charge that Edward E. McCall acted as "boss" Murphy's messenger does not rest on Sulzer's word alone. Mrs. Sulzer said:

"McCall came to the executive mansion urging the governor to do this, or that. He even said to me: 'Your husband must do these things or he will be destroyed. Make him do them.'"

When asked why Sulzer's revelations of yesterday were not made at the trial, his attorney said: "The court would not allow us to go into what were held to be outside matters, and the evidence was ruled out."

Sulzer gave further details bearing on the secret authority assumed over him by Murphy. He said:

"After I took office I learned that the state architect expended more than four million dollars during the previous year practically on his own certificate." Sulzer then told how he demanded State Architect Hoefer's resignation and was only able to get it after a continued struggle with Murphy. Sulzer's statement continued:

"It was shown later that several contracts on the capitol building were bogus and that Tammany ward heeler were kept on pay rolls as electricians. Some masons and bricklayers were on the pay rolls who had never worked a day on the capitol."

Supplementing and strengthening his earlier and more informal denial of the charges made by Ex-Governor Sulzer, Edward E. McCall, Tammany candidate for mayor, issued a statement declaring all accusations "infamous lies."

EDEN AND KEECH FILE COMPLAINTS

Various Allegations Appear as Reasons for the Judgments Asked

Yesterday afternoon the registration of 103 more persons whose names appear on the rolls of the great register was named as defendants in the suits brought by the drys of Anaheim to purge the great register.

Last Saturday the first suit was filed, with fifty-three defendants named. Yesterday afternoon Attorneys Walter Eden and E. E. Keech filed two additional complaints with County Clerk Williams, and as in the first complaint judgment is asked making void the registration of each of the defendants.

The list of 156 names is that furnished by Rev. R. H. Young and others of a committee of anti-saloon people who have been searching the registration affidavits and making comparisons with information concerning residents of Anaheim.

As in the first complaint, registrations are attacked upon various grounds, including length of residence and ability to read the constitution. Under the procedure, unless a defendant appears to resist the action, his name will be stricken from the rolls by the judge if the plaintiff makes the showing alleged.

U. S. Amack is plaintiff in one of the actions filed yesterday, and Jacob M. Gunnitt in the other.

## WITHIN MONTH TO START DRILLING HOLE FOR OIL AT SAN JUAN CAPISTRANO

Forster Ranch Has Been Leased by Oil Company—Papers to Be Filed Soon—Indications Are Good

John O. and Frank A. Forster, brothers, have leased their 2500 acre ranch at San Juan Capistrano to a company that will commence drilling for oil immediately. The lease is for all purposes only, and it is reported that the provisions of the lease are such that a thorough test of the section will be made.

It has been known at San Juan Capistrano for three weeks that oil men were in that section, going over the hills. Several experts have examined the land carefully.

The result of their visits and investigations was an offer to the Forster brothers, who own land running from the mission village southward into the hills to the coast at San Juan-by-

The Sea. The lease has been signed up, and the papers in the matter will probably be placed on record today or tomorrow.

It is reported that the oil experts discovered brea on various places in the foothills of the ranch. If they have decided at what point they will start operations, that information has not been given out.

There is not a producing oil well within thirty miles of the mission village, and the experience of the oil men will be what oil men call a wildcat. The surface indications of oil are so good that the oil men are willing to spend their money on their judgment that there is oil down deep under the Forster hills.

## DEPUTY ASSESSOR WILL MAKE CENSUS OF FRUIT TREES

Orange News: A. C. Newell, deputy assessor, is at present engaged in making a canvass of this district to learn the number of fruit trees on each ranch.

The information so acquired will be used in making next year's assessment. Full data in regard to the trees will be taken, although only fourteen-year-old trees or older ones are assessed. The possession of this information will simplify the work of assessing next spring, when the regular assessment is made, and when the property assessed is so diverse as to make the task a difficult one.

In addition to taking a census of the trees, Mr. Newell will discuss all matters which may be presented by the taxpayers of the district during his visits. He will attempt to explain and adjust such matters as in the last assessment were not understood or satisfactory to the persons assessed.

His home and the grounds surrounding it are considered as beautiful as any in the city and are by far the most extensive. He took a great interest in the welfare of Pasadena and did much toward improving the city, especially Orange Grove avenue and other streets and avenues in that part of town.

Lockwood, who was the brewer's California agent, Dr. F. C. E. Mattison, his local physician, and H. I. Drummond, vice-president of the Security National Bank, have been appointed honorary pall bearers. This morning at 1:40 o'clock an earthquake shock was felt in various places in Southern California. In Santa Ana it was one of the severest shocks ever felt here. At least, that is the way it felt to some of the oldest inhabitants.

## MOTORCYCLIST TO HOSPITAL

Young Man from Orange Ran  
Head-on into Automobile  
from Anaheim

At 11:30 o'clock this morning, Wilber Elder of Orange on a motorcycle had a head-on collision with a Ford automobile driven by W. W. Conklin of Anaheim. Elder was taken to the Santa Ana hospital unconscious. He soon regained his senses, and his physician thinks he can leave the hospital tomorrow.

Elder was riding south on Main street near the city limits, and Conklin was going north. Conklin drove over to his left to stop at the curb in front of a house, and the two machines came together. Fortunately neither was going fast.

The front wheel of the motorcycle was smashed and an axle of the automobile was sprung. Elder has no serious injuries.

Accidents seem to have a special liking for young Elder, who is employed at the Den O' Sweets at Orange. This is a second severe shake-up from a motorcycle. Once he was blown through a plate glass window, and on another occasion he was carried unconscious from the basement of a burning building.

### PORK PRICES TO DROP

BUFFALO, N. Y., Oct. 21.—"The price of pork will drop materially within ten days. The price of beef will not drop, and so far as I can see, there will be no decrease in the price of beef until the farmers raise enough to supply the demand," said J. C. Dold of the Dold Packing company.

William E. Hunt of Port Erie, Ont., said that since the duty had been removed on beef, eggs and milk, Buffalo dealers had been over among the Canadian farmers contracting for their output. From other points it was reported that a veritable famine in beef was likely to result from Canadian shipments to Buffalo and other American cities.

## EVERYBODY SHOULD EAT LUSCIOUS APPLES TODAY

Take your bite today, for it's "Apple Day." "Apple Day" is a holiday most generously observed in California, Oregon and states where the juicy apples grow best. It is the ninth anniversary of the occasion made famous by the International Apple Shippers' Association. Figures compiled by those who claim to know say that there are 100 apples on the market today in every state in the Union for every man, woman and child in the country—if the man, woman or child has the purchasing price.

Statisticians stated yesterday that the apple crop in the United States this year is worth \$100,000,000, and that if the apples were placed in a row they would extend over a distance of 300,000 miles. If stacked in a wall twelve feet high and eight feet wide they would reach from Chicago to New York.

Don't forget to take your bite today, and see to it that the children have all the apples they want.

Warner's & Redfern,  
Nemo and Smart Set,

Sahlin & Ferris Waists

—The logical thing to do before spending good money for a fine suit or a new gown, is to be fitted to a perfect fitting corset, and then always wear that corset with that suit or gown.

—Much of the complaint that comes as to the fit of suits or dresses is due to the fact that they are fitted or made over an old, worn-out corset, that has lost its shape or lines. Buy your corset first, and see how much more satisfaction you derive from knowing that your suit fits and will stay fitted.

—All our new Fall models are now here in our Corset department. We can fit every figure, and assure perfect satisfaction. Note these well known lines we offer:

### WHAT THE PANAMA WORK MEANS

The Egyptian Pyramids have commonly been called the greatest marvel of human construction. Yet when the Gar-ba dike was blown up, practically completing the Panama Canal, the amount of earth removed would make sixty-three pyramids. Some people call the Chinese wall the greatest human marvel. It is 1500 miles long. The material taken out of Panama would make a similar wall 2500 miles long.

The Americans have won where the very scientific French people failed. The capacity of the French for technical achievement is shown by the foremost place they have taken in developing air flight. They went down to Panama and built twelve miles of canal, well designed and well constructed. Their machinery was so good that most of it, after the rust was scoured off, was perfectly fit to use after the lapse of years. Yet they slipped up somewhere on the human side. They left the job a monument of graft.

The Americans turned a swamp into a health resort. The spirit of the thing was expressed by Richard Harding Davis. He said that when he ran across a single man or little group of men somewhere out of sight, unwatched and unbossed, one would naturally expect, considering common human habits, that some of them would be "soldering." Instead of that, all seemed to be digging for all they were worth.

The graft so common in municipal work, the inefficient red tape of government departments, has always made the American people heart-sick. Panama has shown that it is a possible thing to organize government enterprises efficiently. Great power was given to one man, and he was held responsible. This will have its influence on our civic problems. Too often graft and sloth have been sheltered by a division of responsibility so fine that no one knew whom to blame.

### ALASKA'S CALL FOR ATTENTION

The disastrous tidal wave that partly overwhelmed the Alaskan city of Nome has aroused friendly sympathy in the rest of the United States. Substantial gifts of money and supplies have been made. The people of Alaska will be grateful for this help in time of need. But they would be glad to see this opportunity for friendly ministrations wholly ignored, if they could have in its place some attention and needed legislation from Congress. Alaska exported \$45,000,000 worth of produce in 1912, six times more than Uncle Sam paid for the whole territory. It is sometimes asserted that Alaska has a larger proportion of college bred men than any state in the union. But the call for careful

study of its needs, and decision upon some settled land and mining policy, remains unheard. As a result its population, practically stationary for a dozen years, is unsettled and partly nomadic. There is no secure basis of legislation on which to build industrial life and institutions.

A prominent Massachusetts manufacturer remarked the other day, "What country owns Alaska now, anyway?" And most of the people who could answer this elementary question have but the haziest idea of the wonderful possibilities of Alaska, with its territory twice the size of Texas, and of its pressing needs.

### SUGGESTS E. D. ROBERTS FOR CONGRESS

It is quite often necessary to go away from home for political news and the latest illustration of this is the fact that the Sacramento Union has announced the candidacy of State Treasurer Roberts for congress. The Press is unable to say how authoritative the announcement is, but the following extracts from the article will be of interest here where we have had some little experience with the political peculiarities of the new eleventh district.

"Determined, it is said, that the Progressive party shall remain not only prominent in California, but shall retain its identity in the national congress, even though California is obliged to fight single-handed to keep it alive, state Progressive leaders are grooming congressional timber for the 1914 election.

"It has been tentatively agreed that State Treasurer E. D. Roberts, banker of San Bernardino, will be given Progressive support next summer and fall in an effort to take the measure of Congressman William Kettner of San Diego.

"Put up good strong men in the so-called reactionary and Democratic congressional districts and we'll get a good representation in Washington," is the slogan. The failure of California Progressives to send but two representatives to congress, Stephens and Bell, has been a thorn in the side of Progressivism since the 1912 election.

"Roberts is recognized in the eleventh district—which comprises San Diego, Imperial, Grange, Riverside and San Bernardino counties—not only as a man of proved integrity and popularity, but of great capability. Progressives, who have devoted their attention to the congressional ticket while the state candidates for next fall remain under cover awaiting Governor Johnson's declaration, are confident that Roberts, if he can be induced to make the campaign, can defeat Kettner.

"It is said that Governor Johnson will not be loath to having a few good Progressives in Washington for various reasons, and that he probably will second Roberts' candidacy. It is a known fact that Roberts looks upon Johnson as the ideal executive.

"Roberts is the ideal man for the Progressives to select to beat Kettner in the south," said one Progressive yesterday. "He is financially able to sacrifice his interests part of the year in Washington; he is popular in the south and he is a true blue Progressive and Johnson man."

"This Progressive also intimated that life at Washington might appeal to Roberts, and various influences aside from those political might help Roberts to a decision to make the campaign.

"Roberts could have had Progressive support in 1912 had he been will-

ing to run from his district. The state treasurer, however, got behind Samuel C. Evans of Riverside and as a result Evans got the Republican nomination at the primaries."

In comment upon the suggestion of Roberts for Congress, and analyzing the situation, the Riverside Press says:

"The Press thinks very highly of Mr. Roberts and without question he would make a very efficient congressman for this district. The one fact, however, which looms large as one studies the election returns of last year is the determination of San Diego to have the congressman. The rest of the district voted on normal party lines; San Diego voted for Kettner because he lived in that county and gave him over 5000 plurality in a county that is normally Republican by a good safe margin. Without question the result would have been practically the same had Mr. Roberts or any other man from this section been the candidate against Kettner. Mr. Evans was a strong candidate and made a thorough canvass; the only trouble was that he did not live in San Diego. The Democrats will in all probability re-nominate Kettner, though there is some opposition to him in his own party; and the surest way the Republicans and Progressives can defeat him is to nominate a San Diego man to oppose him. That would split the vote of San Diego county and give the opposing candidate an even chance with the Democrat."

"The orange growers of the section would be greatly pleased to have E. D. Roberts in congress, but unless he can be assured of strong support in San Diego, he is wasting his time to run. Locality counts more there than anywhere else and unfortunately for the district, the county has the votes to control the election. It is not a pleasant condition to face, but it exists, as Riverside knows to its sorrow, and any other county that puts forward a candidate will learn the same lesson."

### AIR FLIGHT OVER MEDITERRANEAN TO BE BASE OF PLAY

PARIS, Oct. 21.—The success of Roland Garros' recent daring flight across the Mediterranean sea has caused the postponement of a play which was shortly to open in one of the Parisian theaters.

The whole plot of the piece apparently hinged on the possibility of flying from France to North Africa, which is now shown to be easy. The Atlantic ocean, it is stated, is to be substituted for Mediterranean, but this will entail the rearrangement of so much of the play that it will not be ready for some time.

The game was in favor of the Plumbers throughout the nine innings. This is the first game played by the Plumbers but they played a good game, making but two errors, while the Lumber Mills seemed to have an off day.

The star catch of the day was made by Frank Miller.

Mozart, beginning Friday night. A special matinee has been arranged for Saturday afternoon and the series will close with an unusually attractive program carefully selected for Saturday night.

Mrs. Mozart is well known in Los Angeles, as the recent successful manager of the Mozart Theater, and it is at the request of her many friends in Santa Ana, who were frequent patrons of her house in Los Angeles, that she is presenting this delightful program of pictures here. This series of pictures are different from anything you have ever seen, and have been pronounced by competent critics, of intense interest. This opportunity to see the cream of educational pictures should not be missed by anyone, as they are the very acme of art in motography.

## Y. M. C. A. CONFERENCE

Orange County Young Men to be Trained for Public Speaking

The county committee of the Young Men's Christian Association of Orange county has arranged for a meeting to assist in training young men to do public speaking and conduct deputation meetings along religious lines in the churches of the county. Some work of this character was done last year and it is hoped that a still larger number of young men will avail themselves of this opportunity not only to develop their speaking ability but especially to do good in this way.

The program for this conference will be given in the Sunday School room of the First Congregational Church in Santa Ana next Sunday, October 26, beginning at 2 o'clock.

P. M. German, president of the Garden Grove Y. M. C. A., who has had not only considerable experience in public speaking, but has also done much of this deputation work, will speak on the topic "How to Prepare for Public Speaking." Prof. W. M. Fishback, principal of the Orange High School, will present some practical suggestions on "How to Speak in Public." Then a sample presentation of a text which could be used by a group at a meeting will be given by Rev. Paul Wright, pastor of the First Christian Church of Santa Ana. After this there will be time for discussions and plans for the work. All who are interested are cordially invited to be present.

## PRESENT DAY CLUB

Hears Splendid Paper on Japanese Question by A. J. Perkins

The Present Day Club held an interesting meeting last evening at the home of L. P. Hickox, with Mrs. W. L. Deimling, vice president, in the chair. A. J. Crookshank, the president, being absent.

Between forty and fifty members enjoyed the masterly paper by A. J. Perkins on "The Japanese Question." Mr. Perkins is fully competent to handle his subject, as he has traveled all over Europe and studied conditions found there. He also spent eleven weeks in Japan.

Mr. Perkins holds that the United States is not justified in excluding the Japanese any more than the immigrants from Southern Europe and the Portuguese. The Japanese are a superior people and worthy of admission to our country. They aid in building up industries and are an assistance rather than a detriment.

The paper was warmly discussed, but three of the members being opposed to the stand taken by the author of the paper.

**Pre-Nuptial Dinner**  
Mr. and Mrs. W. B. Tedford entertained last evening at a charming dinner in honor of Miss Hazel Thomas, who has been the recipient of a number of pretty courtesies in honor of her approaching marriage. Marshall Northcross, the groom-elect, was an invited guest, but was unable to be present.

The handsome dining room was aglow with golden-shaded candles and adorned with gorgeous yellow chrysanthemums artistically arranged in a huge glass jardiniere.

The dinner was very informal, the guests being the members of the Thomas family and those of Mr. and Mrs. Tedford. The time after dinner was spent with gay social chat.

**Ebels Travellers**  
The First Ebels Travellers met yesterday at the home of Mrs. M. F. Heathman, on Bush street, with nearly every member in attendance. The afternoon was pleasantly spent in the interesting study of Japanese history.

A very pleasant social hour followed the study period, during which, aided by her daughter, Mrs. George Cole, Mrs. Heathman served a most delectable array of dainty eatables.

As a special treat, Mrs. Heathman introduced to her admiring guests her young grandson, Master Howard Heathman Cole, who, with the most charming of baby smiles, and much waving of dimpled baby fists, plainly signified his delight in the occasion.

The next meeting will be held the first Monday in November at the home of Mrs. J. J. Roper.

**Notice to Contributors**

## HALLOWEEN PARTY

Eastern Star Makes Merry After Lengthy Business Meeting

A goodly attendance marked the meeting of the Eastern Star Chapter last evening and the officers spent the first part of the evening in dispatching important work, including the balloting upon a class of six candidates.

Adjournment was taken above stairs, where a beautiful and picturesque sight met the eye. In keeping with the Halloween season, the hall had been garlanded with yellow crepe paper and from these were suspended black witches on the historical broom handles, black cats and owls and all the emblems appropriate to the "spooky" season. Pumpkins were shaped into grotesque lanterns giving forth a dim light and the napkins bore the insignias of ghost time.

An appetizing collation of various kinds of sandwiches, coffee and accosties was served cafeteria style, after which a jolly game was played. A huge pumpkin was fashioned into a face with an immense mouth and into this the players were required to throw a small rubber ball. The ladies were greatly elated to find that they were the best throwers and indeed it over the gentlemen in proper style. But one man succeeded in finding the pumpkin's mouth, while there were a number of the gentler sex who accomplished the feat. Beautiful chrysanthemums were awarded as prizes.

**Mission Study Class Meets**  
The Mission Study class of the Christian Endeavor of the First Baptist church met last evening with Miss Emily Cox on North Main street. A very instructive and enjoyable evening was spent.

**Paper on Historic Landmarks**  
The P. E. O. Chapter met yesterday evening with Mrs. Roy Peterson with a large number of members present. After business had been dispatched the members enjoyed a fine paper on "The Historic Landmarks of the United States" by Mrs. F. C. Rowland, this being along the line of study now being pursued by the chapter. Mrs. Stearns sang two solos, which were greatly appreciated.

A social hour was afterwards enjoyed. Mrs. Peterson serving the members with delectable refreshments.

**Read of Sicily**  
The Second Travelers' Club of the Ebels met yesterday afternoon with Mrs. W. A. Zimmerman on North Main street with a very good attendance. A very instructive study hour was enjoyed in continuing the study of Sicily.

After the study period the hostess invited the members to the spacious dining room, where October decorations, in the shape of jack-o'-lanterns, pumpkins, etc., prevailed. Delicious refreshments in two courses were served.

**Los Angeles Luncheon**  
Mrs. A. G. Flagg, Mrs. F. Logan Norton and Mrs. G. B. Darnell will be among the guests tomorrow at a noon luncheon to be given at Christy's by the First District Parent-Teacher Federation.

**Surprise to Friends**  
Finis N. Anderson, a popular young employe at Taylor Bros' parlors, slipped away to Los Angeles yesterday and obtained a license to wed E. Mildred Harris of Upland. This morning Mrs. G. W. Anderson, the young man's mother, received a telegram asking her to come to Los Angeles and she left on an early car.

**In The Shadow**  
Very impressive funeral services were held over the body of Perry A. Foreman at Smith's chapel yesterday. Rev. W. Scarborough of the South Methodist Church, officiating. The chapel was filled with sorrowing relatives and friends, who mourned at the untimely taking away of the young man in his promising young manhood. High in Y. M. C. A. circles, where he held a responsible position, he was also a Mason, although but twenty-three years of age.

Miss Alfreda Holzgrafe sweetly sang two solos, "Some Time We'll Understand" and "The Beautiful Isle of Somewhere." The bier was covered with lovely floral emblems and at the grave the Masons took full charge of the last sad rites. The bearers were Masons.

The decedent was a nephew of Ex-Sheriff Theo. Lacy.

## IN THE JUSTICE COURT

## BOSTON TERRIER GOT A MAN INTO TROUBLE

Investigation Indicates that There is Not Much to the Case

It was all over a brindle Boston terrier. They say the canine is worth \$50, and that she is classy.

L. M. Combs, a transfer man, went to the courthouse and told about the absence of the terrier. He said she had been stolen, and he wanted a warrant.

The warrant was issued, and Charles Kinsley was arrested on a felony charge, stealing something worth over \$50.

When Kinsley was taken before Justice Cox, the justice heard a few things about the case and he decided that the terrier might be a mighty good terrier but she was not worth sending any man to jail about.

Kinsley said the animal followed him home, and took up her abode at his house, and that there was no theft to it.

Justice Cox let Kinsley go on his own recognizance. Not even \$1 bail was asked. The last heard of the case was that it was going to be settled.

Incidentally the story of the terrier's life history is out. She belonged to last year's Mitt and Jeff show, and right here in Santa Ana she concluded that the theatrical life was not what it appears to be to those who view it from in front of the footlights. She quit the show business and went with a transfer company.

## ODOR SLIGHT SAYS DEFENSE

Orange Contends that Sewage Has Been Cared for Properly

Dozen West Orange Ranchers Testify—Mrs. Breeden's Estate

One side says "tis, and the other says "tain't.

This morning District Attorney West put on his last witness in the trial of the case against the city of Orange, seeking an injunction against Orange to prevent it from disposing of its sewage at West Orange in a manner that the plaintiff asserts is a nuisance.

All of the witnesses for the plaintiff declared that the odors that have been coming from the sewage tanks and farm have been and still are exceedingly unpleasant and far-reaching. Some of the witnesses say they get the smell away over on Chapman avenue, a mile from the sewage outlet.

Among witnesses examined by the district attorney for the state were C. E. Goodspeed, Fred Wyndle, Henry Blackholder, Dr. C. D. Ball, Harry W. Lewis, Robert Blanchard, Samuel Morris, H. G. Witt, A. H. Palmer, S. M. Hickey, H. J. Feldner, H. C. Blanchard and Fred Schroeder.

City Attorney Brown of Orange and Attorney Williams of Santa Ana put on Sewer Superintendent G. W. Buchanan of Orange as the city's first witness. Buchanan testified as to the care used in the disposal of sewage, and said that on numerous occasions he visited the septic tank and farm, and had never noticed the odors for over 200 yards or so from the tank.

N. H. Leonard, owner of the ranch on which most of the sewage is used, said that in the last year he had visited the place between 100 and 200 times. He never noticed the odor more than a few yards away from the septic tank. Many times he had experimented in measuring the distance from the sewer to the farthest point at which he could notice the odor. Seldom could the odor be noticed over fifty yards away.

F. J. Clabby, C. C. Stoner, W. D. Harding and Charles Henderson testified to visits paid by them to the septic tank, and they did not find the odors penetrating more than a few score feet from the tank.

The case will probably be continued to next Friday, when State Engineer Hyde will be here as a witness for the defense.

## TRUSTEES TO SEEK SUPPLY OF NATURAL GAS FOR SANTA ANA

### Commission Appointed to Censor Theaters of City---Will Cut off Outside Water Users Next Year

Committee appointed to see if it is feasible to get a supply of natural gas for Santa Ana.

Mrs. O. M. Robbins, Constable C. E. Jackson and T. E. Stephenson appointed on the censor commission.

No more water taps for users outside city, and all such services to be dropped July 1, 1914.

Movement under way for small park on Santa Clara between Main and Broadway.

In brief, the above statements indicate some of the most important matters dealt with by the City Trustees at the regular meeting last night.

Trustee Grubb brought up the matter of getting a natural gas supply for Santa Ana, which now pays a rate of \$1 per 1,000 cubic feet for manufactured gas to the Southern Counties Gas Company.

"Fullerton has an option on a natural gas supply at twenty cents per 1,000 feet," said Grubb, "and in the likelihood of Fullerton putting in a municipal distributing system, the Southern Counties Gas Company has offered to supply that city with natural gas at eighty cents. There are millions of feet of gas going to waste in the oil fields, and if there are any good things being passed around in the gas business, we ought to get in on it, especially as natural gas is a better quality gas than we are getting now."

Trustees Grubb and Alderman were appointed a committee to make an investigation to see what the chances are for Santa Ana to get a natural gas supply from the Brea and Olinda district.

In response to the invitation of the Trustees, the Ministerial Association, the Ebell Society and the W. C. T. U. had submitted lists of names, fifteen all told, from which the Trustees had agreed to name a censor commission.

With power to proceed against undesirable theatrical productions and against managers who allow undesirable plays and performances to be given in Santa Ana. Those suggesting the names had not interviewed the persons suggested to see if they would accept the positions.

A ballot was taken, and the choice of the board resulted in appointing Mrs. O. M. Robbins, C. E. Jackson and T. E. Stephenson.

To End Service

Grubb stated that several applications had been received recently from persons living outside the city limits asking for water service from the municipal system. Grubb said he believed that the city should refuse any further services for outsiders, because he felt sure the matter would find its way to the Railroad Commission and the city be declared a public service corporation and be compelled then to deliver water outside the city.

Grubb moved to refuse any other services outside the city and pass an order to discontinue serving the twenty-two houses now outside the city connected to the water mains of the city after March 1, 1914. McPhee and Greenleaf thought more time should be given the outsiders to disconnect and Grubb's motion was carried with July 1, 1914, as the time set. Alderman voted no.

Put on Table

The clerk read an ordinance that eighteen business men doing business near Fourth and Main had petitioned for. This ordinance as read would prohibit public speaking on the streets within a district covering a few yards in all directions from the corner, except to the south, where the ordinance set the speakers back only ten feet. Against the short district southward, Ey protested.

McPhee strongly opposed passing the ordinance at all. He said it was inviting a scrap with the L. W. W.'s and he said Santa Ana cannot afford any fight with those who might take the fight up. He said the ordinance would certainly bring trouble.

City Attorney Heathman declared the ordinance would be treading on dangerous ground, and that in his legal mind it was barely legal anyhow.

Grubb declared that the people are entitled to have the corners cleared and that the ordinance should pass. McPhee moved that it be tabled, and his motion prevailed.

Want a Little Park

C. F. Bennett said that the Santa Ana Farmers' Club had proposed establishing a small park on Santa Clara between Main and Broadway, so that there would be a resting place for autoists passing through, and some of the travel might be taken off Main street on to Broadway, which will soon be paved from end to end. He said it was proposed to secure by gift or purchase fifty feet additional to the street, and inside the street establish the park. All the club wanted of the city was to have the city plant trees, grass, etc., in the park and establish benches, toilets, etc., there. The club would undertake to secure the property.

G. W. Minter said he favored the plan, but he thought the additional strip should be 150 or 200 feet.

A motion by Alderman that the city

agree to lay out and care for the park was carried unanimously.

VENTS ARE NUISANCES

Alderman said that he had heard frequent complaints of nuisances created by gas vents of the gas system. One of these is on P street between Vance and Wellington and another near Roosevelt school. On his motion the city health officer was instructed to investigate and suggest a remedy to abate the nuisances.

There was a long discussion over electric signs. Under the ordinance the city engineer may grant permits for signs not over three feet high. Special permits for larger signs may be issued by the board. A permit for at least one big sign has been issued, and last night permits were issued for two others, one at Strook's jewelry store and the other at an East Fourth garage. The Trustees agreed that the ordinance needs revision.

For Arbitration

C. A. Bennett, driver of a rental auto that has stood on Main next to the Santa Ana Produce for two years, asked that the board adjudge that he has a right to the place in preference to L. L. Vestal. Bennett originally had the produce company's written consent. Recently Vestal got a permit, an disks on keeping the place. Bennett asked the board to stay by him.

Alderman said he thought it good policy for the board to allow adjoining merchants in all instances to say who shall have auto stands next their curbs. The police committee was instructed to investigate and report on this point.

The city will buy 20,000 pounds of oats at \$1.70 per 100, from an Orange dealer unless some Santa Ana dealer offers oats for less.

The city engineer was instructed to set grade stakes at Sixth and Ross. The light committee was given power to act concerning establishing a street light in the middle of the 1000 block on West Second.

Alderman was named as a committee to take up with property owners on East Fourth near Dr. Ferguson's a proposal to move curbs two feet further into the street, to make the curbs of the street uniform.

The street superintendent was instructed to proceed to open an alley between First and Walnut west from Flower. A barn will have to be moved.

Mrs. R. J. Blee and others asked that curblines be established on new 10-foot streets, the eastward extensions of Myrtle and Canille street, making 12-foot parking. Granted.

On Alderman's report the curblines in front of Jacobs' property on North Broadway was set out two feet.

Special Permit

Alderman stated that the fire chiefs' convention had found the Petaluma ordinance controlling the storage of gasoline to be the best discussed, and Alderman moved that gasoline be stored back of the new jackman building in accordance with that law, which requires that a concrete wall be built between each tank. Alderman suggested a special permit.

City Attorney Heathman declared a special permit could not be issued, and said the only permit that can be given would be one in accordance with the Santa Ana ordinance.

Grubb and Alderman stated that the city needs a new ordinance on the control of gasoline, the present ordinance not fitting conditions. It prohibits, in the business section, keeping over "one week's supply" at indefinite term.

Finally the special permit was granted as suggested, and the city attorney was instructed to prepare a new gasoline ordinance.

E. R. Halesworth asked for permission to slope a sidewalk into a gutter at the corner of Tenth and Halesworth. The matter was referred to the city engineer with power to act.

A long list of streets were reported by Trustees Grubb, Alderman and McPhee, on which it is proposed to enforce the procedure for cleaning the streets of weeds, both streets and curbs. The property owners must clean off the weeds or the city will do it at the owners' expense.

Ey reported that there is not a single street in the First ward that needs the services of the ordinance. Only occasional frontages are to be found where clean-up law is needed.

Greenleaf expected to report later.

McPhee reported that Bennett, auto driver, had paid his license and had been warned not to overcharge customers. The matter was dismissed.

Warning Signals

Ey reported that Santa Fe officials had agreed to put in warning signs on crossings southeast of the depot as soon as possible. The McClay crossing will get the first warning signal.

Ey said that people are agitating the paving of East Second street, but they fear the S. P. will not pave with the same material as they: Ey said he had read the law to the people, showing that the railroad must use

## SIXTEEN THOUSAND DOLLAR ESTATE AWAITS CLAIMANT

Do you know, or did you ever know anybody by the name of Batallie?

The following letter has been received by the Register, and it is fully self-explanatory:

JOHN J. DWYER,  
Attorney at Law,  
2 State Street, Hartford, Conn.  
October 16, 1913.

The Register,  
Santa Ana, Cal.

Gentlemen:—We would like to learn the present address of some descendant of Louis Paul Batallie and his wife, Victoire Noemie de Schaaff, who were married in France in 1849, and had a daughter born in 1850. They were last heard of in some part of California. This daughter is entitled to about \$16,000.

Please publish this letter, and it may come to the notice of some one who can give us information concerning her.

Yours truly,  
JOHN J. DWYER

the same material as the property owners.

Contractor Huberman said the railroad had promised to pave at the same time as the rest of the street and use the same pavement.

Alderman said sixty-five per cent have signed, but some of the property owners do not want to pave unless the assurance is given that the S. P. will discontinue using steam engines on the road, and also that the rails will be moved to the center of the street. Alderman said he had heard that the S. P. is to stop using the road for steam trains.

McPhee said that a long time ago McMillan of the P. E. had promised to discontinue using steam cars on Second street, but McMillan now says he set no date. On McPhee's motion the clerk was instructed to write to the S. P. and P. E., reminding them of the promise, and explain the situation.

The petition for paving East Second with asphalt from Spurgeon to Jarfield was referred to the city engineer to check up the frontage and signatures.

More Paving

Property owners on Broadway from Third to Culbion, asked for paving with asphalt. G. W. Minter said the only reason the south block was not included is that the school board has no money to devote to paving for its share. The petition was referred to the city engineer.

Alderman recently started a movement to have telephone companies use the same set of poles on First street, especially as it is new work. One of the companies has just set additional poles on West First. The city clerk was instructed to notify the Home company to enter on joint pole use on East First, and hereafter notice of new work must be given the board.

Huberman to Pay

Contractor Huberman asked to have Broadway from Fifteenth to Santa Clara closed so that he can proceed with laying asphalt after Broadway is completed to Fifteenth about a week hence. It appeared that all the work from Hickey to Fifteenth has been by private contract with Huberman, and he expects to go on to Santa Clara entirely by private contract, though some property owners may stand out. The city engineer has prepared plans and specifications. If there is a Vrooman proceeding, the cost of the engineer's work, about \$100, will be paid by the owners. McPhee objected to the city paying the expense, if everybody signed a private contract. It appears that hitherto in such instances the city has paid whatever accumulated expense has been incurred when Vrooman Act has been used to force private contract.

The permit to close Broadway to Santa Clara was issued.

## M. E. CHURCH SOUTH CONFERENCE BEGINS HERE THIS EVENING

### First Meeting Tonight—Sessions Last Until Sunday Evening—Change of Name Up for Discussion

With a sermon tonight by Rev. W. R. Thornton, pastor of Central church, Phoenix, Ariz., and the administration of the sacrament by Bishop R. G. Waterhouse of Los Angeles, the Methodist Episcopal church, South, conference of the Los Angeles and Arizona district will begin. Business sessions, sermons and addresses will continue until Sunday night, the business sessions from 9 to 12 each morning, the sermons at 3 o'clock each afternoon and the addresses at 7:30 o'clock each evening.

Members of the Spurgeon Memorial church, corner Church and Broadway, of Santa Ana, under the leadership of Pastor D. Scarborough, have made all preparations for entertaining the visitors, who will number between 100 and 150. The ministers of the various churches of the district, which includes all Southern California and all of Arizona, and a number of connectional officers from Nashville, Tenn., and Louisville, Ky.

Prominent Men Here

At the conference will be a number of men of national prominence in the church. Among these will be Dr. McMurray of Louisville, secretary of the general church extension board, Dr. Bula of Nashville, secretary of the Sunday school board, Dr. Fitzgerald of Nashville, secretary of the Epworth League board, Rev. J. E. Crutchfield, president of Columbia Junior College of Milwaukie, Ore., and Rev. W. E. Vaughn, editor of the Pacific Methodist Advocate of San Francisco.

From among these men will be selected speakers for the evening addresses.

Bishop Waterhouse will preside at the sessions of the conference, which begin tomorrow morning at 9 o'clock. At the Sunday night meeting he will announce his appointments of pastors for the coming year.

Delegates to the general conference which will be held in Oklahoma City next May are to be elected.

Question of Name

One of the most important matters to be discussed at the conference is the proposed change of name from the M. E. Church, South, to the M. E. Church in the United States.

When the Methodist Church of America split in 1844 to the Methodist Episcopal Church and the M. E. Church, South, was strictly a sectional church. It is no longer so. It now has con-

ferences in almost every state in the Union and in seven foreign countries, and has a membership of 2,000,000. The question of the change of name has been passed upon favorably by nearly all of the conferences before which it has come, on the ground that the new name, M. E. Church in the United States, more nearly fits the present conditions of the denomination.

All of the meetings of the conference are open to the public. All meetings will be held at the Spurgeon Memorial church.

## LOS ANGELES PRODUCE MARKET

An unusual firmness in the local potato market is reported by the leading produce houses. This new condition, it is said, is brought about through an increased demand for potatoes in the northern part of the state and as Los Angeles and vicinity depend to a large extent for their potato supply upon Sacramento Valley, the effect of the northern conditions is readily felt here.

The Highland Burbanks were quoted to the trade yesterday from \$1.50 to \$1.60 per hundred. The local potato crop is for the most part sold by the farmers direct to the retailers and as a consequence there is no fixed wholesale quotation on the local product.

The San Francisco quotation of \$5.50 cents on fresh ranch eggs caused considerable comment on the part of the local produce men yesterday, but the local quotation remained unchanged. There have been no local fresh ranch eggs offered on the Produce Exchange for more than a week.

Grapes were sold at a higher price yesterday, and the quotations fixed on tomatoes were as high as \$1.35 per lug box.

## VERY DAMAGING IS EVIDENCE AGAINST MRS. JENNIE EATON

PLYMOUTH, Oct. 21.—Damaging testimony for the defense was given today at the trial of Mrs. Jennie May Eaton, charged with poisoning her husband, Rear Admiral Eaton, Professor W. M. Whitney of Harvard University, testified that he examined the stomach of the baby adopted by the Eatons and found no poison. Mrs. Eaton charged that her husband poisoned the baby.

Prof. Whitney also swore that he found arsenic in the admiral's stomach after his death. He thought more than one dose had been given.

The fire was reported on the north side of the river not far from the pumping station, and as about out with no danger of spreading.

## The Last Word

In apples is the fruit produced in the young orchards in the Yucaipa Valley. For color, size, shape, flavor and keeping qualities, it cannot be surpassed in the world. Why? Because it is the product of high altitude mountain air, Placentia loam soil, and melted snows of Old Grayback. No room for doubters now. The trees are there, the water is there, the fruit is there, the market is ready. The magnificent development of the last four years has solved all problems. Henceforth Yucaipa will hold its place secure as a high class fruit growing district. Four hundred separate orchards have been planted, many of which are bearing fruit, the finest and best. The sales of ranches now aggregate a million and a half dollars. A few months more will likely see the last acre of this high class irrigated land sold. There is more land, but not up on the high mesa, the choicest orchard land in Southern California. This opportunity to get a prize will not last much longer. Now you still have a chance to get in at the beginning. And every ranch will prove a money maker. Already the rise in values and the growing trees have made hundreds of thousands of dollars for Yucaipa ranchers. Orchards that cost four hundred dollars per acre are selling for eight hundred and they will soon double again for the bearing trees will bring gold dollars into Yucaipa Valley.

NOW THEN! Go up to the Apple Show, Oct. 23-24. See the fruit on the young trees. See what scientific tree-growing is like. See the most beautiful valley in Southern California. One day is enough for the trip. Reduced railroad rates, \$2.25 for the round trip. Free automobile ride through the valley. Call at 504 North Main St., Santa Ana, or Phone 970W. Home 3744.

# UNIQUE CASES IN THE SUPREME COURT

700 Questions Await Decision Before Highest Judicial Tribunal of U. S.

WASHINGTON, Oct. 21.—Some of the most extraordinarily unique cases in history are awaiting decision of the supreme court of the United States. Approximately seven hundred disputed questions are before the highest judicial body in its October term. Whether negroes may call upon their constitutional prerogatives to force the right to bury members of their race in cemeteries reserved for whites; whether the U. S. army must pay for business damage through loss of shelling shells from its big guns; determining the rightful mother of an incubator baby; and to determine the constitutionality of the "grandfather clauses" of Oklahoma and Maryland, designed against voting privileges of negroes whose grandfathers were not voters, are but few of the singular questions the court is called upon to pass on.

Though decided against the plaintiff in the Illinois supreme court and a lower court, the supreme court must decide whether the Forest Home Cemetery Company of Chicago shall be required to sell a burial lot to John R. Gaskill, a negro. The body of Gaskill's wife, who died in March, 1912, still remains in a temporary receiving vault. The place of permanent burial depends upon the court's decision. Four deceased children of the negro are buried in the Forest Home cemetery. Before his wife died, however, a ruling against negroes was made by the management on the basis of business reasons.

A deserted summer resort near a United States army fort in the vicinity of Portsmouth, Maine, spells a difficult question for the court. Before the fort was established, summer hotels flourished. Later the big game of Uncle Sam's coast defense sent 14-inch shells shrieking over the summer hotels which happened to be directly on the line of target practice fire. Rather than sacrifice safety to summer resorting on that particular section of the Maine coast, the summer boarders went elsewhere. Whether the hotel owners can recover damages for their defunct business is the question involved and the court must decide.

A wee two-pound bit of humanity during the Louisiana Purchase Exposition at St. Louis in a "baby incubator" but who now is a robust child of nine years, is involved in another question before the court. Mrs. Lotie Bleckley of Topeka, Kansas, claims to be the mother. Mr. and Mrs. Barclay of Douglas county, Ill., claim the child as an adopted daughter. Barclay was a guard at the world's fair. He watched the baby grow in its little glass case and later took it home. Mrs. Bleckley has fought the claim that her own baby died a few days after it was born, through Illinois and Kansas courts. The foster parents declare that she is mistaken.

Enfranchisement of the negro in Oklahoma and Maryland depends upon the court's ruling regarding the validity of the famous "Grandfather's clause." This clause, which is effective in other southern states, bars the negro from voting booths because his grandfather was not a voter. Whether the court will take into consideration that most negroes' grandfathers were slaves is a question. Singular also is the existence of many cases before the highest judicial body involving claims for damages in amounts of \$1,000 and less. The cost of carrying a case to the supreme court of the United States rarely figures under several thousand dollars.

Many Spectacular Features of Exposition Held With Mining Congress

PHILADELPHIA, Oct. 21.—The great industrial exposition held in conjunction with the sixteenth annual session of the American Mining Congress which convened here yesterday, was the central feature of today's proceedings.

Preceding the scheduled addresses and discussion of the delegates, representing every mining section of the country, adjourned to the exposition rooms where there are on display the greatest collection of mining machinery, first aid appliances and like apparatuses ever gotten together under one roof. It is the first exposition of its kind ever held in the United States. Included as part of the exhibits will be drills by rescue and first aid crews, and exhibition of the work done by the rescue car of the United States Bureau of Mines with a picked crew of helmet men. The state of Illinois and a number of the big anthracite companies also have rescue cars here with their crews.

## CANDIDACY OF T. R.'S SON FOR CONGRESS ROUSES INTEREST

WASHINGTON, Oct. 21.—Washington society is much interested in the prospective candidacy of Theodore Roosevelt, Jr. for the nomination for congress, to succeed Francis Burton Harrison. The possibility of Theodore Jr. returning to the capital with his young wife has caused society leaders to hope for his nomination and election in order that the younger set of diplomats and others in political life may enjoy many of the social festivities for which the Roosevelt family is famous.

## CATHOLICS FAVOR WESTERN FARMS

Would Send Immigrants to the Cultivation of Land Rather Than to Crowded Cities

BOSTON, Oct. 21.—Under the direction of the Very Rev. Francis C. Kelly, D. D., director of the Home Mission Section, the second day's meetings of the Second Congress of the Catholic Missionaries' Association of America opened today in Symphony Hall. The immigration problems which confront this government was the topic of an address this afternoon by Rev. P. J. Muldoon, D. D., Bishop of Rockford, Ill. The immigration question is looked upon by the association as one of the most important problems of the day from the church point of view.

Following the address, many members of the association, in formally discussing the topic, declared in favor of more stringent laws which would prohibit the wholesale immigration of foreigners, which laxity of the present laws permit. They urged laws similar to those of Canada, and declared that the law should contain a section which would bar the majority of the immigrants westward as colonizers and developers of the soil rather than let them remain in the overcrowded cities as is now the case.

## GOV. JOHNSON AND WIFE LEAVE FOR 3 WEEKS IN EAST

SACRAMENTO, Oct. 21.—Governor Hiram W. Johnson and Mrs. Johnson left Sunday night for the East, where Governor Johnson will spend his vacation of three weeks in the Progressive cause. In Massachusetts the governor will stump for Sumner Bird, Progressive candidate for governor, and in New Jersey he will make a few speeches for Everett Colby, Progressive candidate for governor of that state. When he left, the governor was in a happy mood and in good health, in spite of two arduous days, which included many night hours spent signing California highway and San Francisco harbor improvement bonds. Saturday the governor signed bonds all day and until after midnight.

## WIRELESS STATION MAY BE LOCATED ON TOP PIKES PEAK

COLORADO SPRINGS, Oct. 21.—Pikes peak probably will be chosen by Secretary Lane as the location for a government wireless station to be used by the weather bureau in a trans-continental chain of similar stations. When Mr. Lane was here recently he visited the peak and collected data as to what had been done here by the weather bureau men, who for a time operated a kite-flying station to get information as to the upper-air strata.

## HOOSIER WOMEN TO SEEK BALLOT

Club Federation Now United in Desire—New Constitution for State is Sought

INDIANAPOLIS, Ind., Oct. 21.—A new constitution for Indiana and women suffrage probably will be endorsed by the Indiana Federation of Women's Clubs, which opened its seventh annual convention in this city today. Votes for women was evaded at the last convention, but the clubwomen are now said to favor the step. The Women's Franchise League of Indiana will present both resolutions for suffrage and a new constitution. The League already is planning a wide appeal to the men for votes in favor of a constitutional convention when the referendum on this question is submitted in the 1914 election.

Every manner of subject will be treated in papers to be read before the convention beginning today and closing Friday.

Among the subjects are: Country Life, Parent-Teachers' Clubs, Fly Campaigns, Standardization of Household Operation and Equipment, Health of the State, Merit System, Physical Exercise for Women, Forestry, Sex Hygiene in Schools and Training for Motherhood.
